The goal of the GMP is to support Oregon businesses access to public procurement opportunities, regardless of what stage of business they are in. Our governmental Agencies, Business Resource sessions, and resource booths are designed to provide pathways to success in contracting with the government. The GMP provides inclusive and equitable support to all Oregon small businesses. If you think your business is too small to contract with government agencies, think again! Public agencies across the state contract for billions of dollars on goods and services providing vital infrastructure and community prosperity, and they need you!

- **Contractors with a CCB license will have the ability to obtain up to 4 Continuing Education credits.**
- **In between your selected sessions you will have nearly 3-hours for meaningful interaction at the Agency and Resource exhibitor booths!**
